PROFESSIONAL EXPERIENCE

IT Executive – Application Support

Capital Maharaja Group **Jan 2024 - Present**

- Provided technical support for Sales Force Automation (SFA) systems, including monitoring, troubleshooting, and integration testing.
- Developed Power BI dashboards and reports to support business analysis and management decision-making.
- Built Power Apps solutions and automated approval workflows using Power Automate to improve business processes.
- Supported the end to end implementation of the Bizom Sales Force Automation (SFA) platform across five Capital Maharaja Group companies, acting as a liaison between business users, sales teams, and technical teams to ensure smooth ERP integration and successful system adoption.
- Collaborated with business, IT, SAP, and sales teams to gather requirements, resolve operational issues, and improve system workflows and usability.

Software Development Trainee

Cooperative Development Department – Southern Province **October 2022 – April 2023**

- Successfully completed a six-month software development training program at the Cooperative Development Department.
- Participated in the design, development, and testing of software applications as part of the training.
- Completed two software development projects, gaining hands-on experience in application development and problem-solving.

EDUCATION

Bachelor of Software Technology **2024 – Present**

University of Vocational Technology

- Focused on software development, programming, database management, and IT fundamentals.
- Gained knowledge in application development, system analysis, and software engineering concepts.

Diploma in Information & Communication Technology (ICT) **2021 – 2023**

College of Technology, Galle

- Covered computer applications, networking basics, and software tools.

PROJECT EXPERINCE

Bizom Implementation – Sales Force Automation System

- Collected and analyzed business requirements from each company and communicated system requirements to the Bizom team.
- Coordinated with Bizom and SAP teams during system implementation and testing.
- Uploaded and maintained master data such as products, customers, and distributor information.
- Provided user training and guided staff on how to use the system and manage daily operations in Bizom.
- Tools / Systems: Bizom, SAP, Microsoft Excel

Power Apps Project – CAPEX Document Approval System

- Developed a CAPEX document approval application using Microsoft Power Apps.
- Implemented an automated approval flow using Power Automate.
- Enabled email notifications during the approval process.
- Technologies: Microsoft Power Apps, Power Automate, Microsoft 365

Cooperative Requisition Report Generator

- Designed a desktop application to collect court payment orders related to SANASA creditors.
- Automated the creation of requisition reports, reducing manual data handling.
- Ensured accuracy and consistency in financial reporting.
- Technologies: VB.NET, MS Access

EXTRA CURRICULAR

- Cricket: Southern Province School Champion (2016), Runner-up (2015, 2017); Galle Division Champion (2015–2017)
